K.FFR.3.A Identify capital and lowercase letters of the alphabet.
K.FFR.3.B Identify common letter-sound correspondences.

Materials: Alphabet strip, letter cards K-O, pictures of a kite, lion, moon, nest and octopus.

Students will

- Name the capital and lowercase letters K, L, M, N and O.
- Say the first sound of each letter.
- Know that K and C can make the same sound.
- Tell little m (two humps) from little n (one hump).

Key words

letter name	what we call the letter (M)
letter sound	the sound it makes (mmm)
hump	the curved part of m and n
same sound	K and C both say kuh

Before the video 2 minutes

Hum “mmm” like something tasty. Ask: “What letter makes this sound? What words start with it?”

What happens in the video

0:00	Welcome and today's goal: letters K to O
0:20	Review A to J and meet K to O
0:39	K: kite, key (kuh, like C)
0:56	L: lion, leaf
1:13	M: moon, mouse
1:31	N: nest, nose
1:49	O: octopus, olive
2:11	Marching through K, L, M, N, O
2:27	Spot the mistake: two humps is m, one hump is n
2:47	Your turn! Students answer during each pause (see below)
4:01	Recap and goodbye

Spot the mistake at 2:27

> **Sam:** Look! That's the letter n!
> **Ivy:** Hmm... count the humps. Does it have one hump, or two?
> **Mia:** It has two humps. That's little m, like moon! Little n has just one hump.
> **Sam:** Oops! That's little m, for moon!

- Ask: “How many humps does it have?” (Two.)
- Trace m and n with a finger and count the humps.
- Say: m for mountains (two), n for nose (one).

Your-turn pauses students answer out loud, then the characters give the answer
